RULING ON ENTITLEMENT¹

On April 4, 2024, Lily Hobí filed a petition for compensation under the National Vaccine Injury Compensation Program, 42 U.S.C. §300aa-10, *et seq.*² (the “Vaccine Act”). Petitioner alleges that she suffered a “Table Injury” of shoulder injury related to vaccine administration (“SIRVA”), as the result of a meningitis vaccination received on April 7, 2023. Petition at 1. Petitioner further alleges that she suffered the residual effects of her injury for more than six months, and that there has been no prior award or settlement of a civil action on her behalf as a result of her injury. Petition at 1, 4. The case was assigned to the Special Processing Unit of the Office of Special Masters.

On March 13, 2025, Respondent filed his Rule 4(c) report in which he concedes that Petitioner is entitled to compensation in this case. Respondent's Rule 4(c) Report Conceding Entitlement to Compensation at 1. Specifically, Respondent has concluded that Petitioner's injury is consistent with a SIRVA as defined by the Vaccine Injury table. *Id.* at 6. Respondent further agrees that Petitioner has suffered the sequela of her injury for more than six months and all other legal requirements have been met for compensation under the Act. *Id.*

In view of Respondent's position and the evidence of record, I find that Petitioner is entitled to compensation.

IT IS SO ORDERED.
